Mobile & Validasi

Daftar

A desktop view of a registration form titled "Daftar Dengan Email" (Register with Email) with the subtitle "Buat Akun Anda" (Create your account). The form is centered on a blue and green gradient background. It includes a logo at the top, followed by input fields for "Nama" (Name), "Email", "Password", and "Konfirmasi Password" (Confirm Password). Below the fields are buttons for "Sign In" and "Log In", with an "Or" link between them. A toggle switch for theme selection is in the top right corner.

Mobile & validasi

Two side-by-side screenshots of the registration form. The left screenshot shows the mobile view, which is a scaled-down version of the desktop form. The right screenshot shows the form with validation errors: "Nama wajib diisi" (Name is required) for the Name field, "Format email tidak valid" (Email format is invalid) for the Email field, and "Password minimal 6 karakter" (Password must be at least 6 characters) for the Password field. The "Sign In" and "Log In" buttons and the "Or" link are also visible in the validation view.
